

# Want to grow your practice?...

**No Investment Needed!**

**Enhance Quality Patient Care**

**Add Specialty Patient Care  
Services to your Practice**

**Increase your Office Revenue**

*“Enabling the Physician’s Practice Growth “*

# Internist and Family Practice Challenges

The burden of rising costs and lower reimbursements strains physician's practices. Internists and Family Practices are hard-pressed to find quality solutions to accommodate patients' needs.

## American Cardiovascular Imaging LLC (ACI) Solution

### Add specialty care to your existing practice

In office nuclear cardiology or ultrasound imaging is the optimal solution to enhance fiscal health of a physician's practice while adding to high quality patient care. Front-line, on-site medical diagnoses eliminate need to refer your patients outside of your practice. Your patients can take comfort in knowing that they don't have to visit unfamiliar clinics for care. ACI provides the equipment, staffing, quality control, licensing and radiopharmaceuticals.

### Increase your practice revenue at no cost

American Cardiovascular Imaging LLC, offers a means to leverage your time and your practice revenue potential without the financial burden, overhead or risk of ownership under an annual per day lease arrangement.

**Practice Growth Opportunity**

You don't invest – We do  
You don't need the expertise – We provide  
You don't need the technology – We bring it to your office  
You don't need the certification and accreditation – We have them

# Nuclear Cardiac Imaging In Your Office

## Cardiology Exams

ACI performs non-invasive cardiovascular exams for your patients at your office. The images are precisely interpreted by board certified and accredited cardiologists. Upon critical findings, results are immediately diagnosed to schedule quick intervention. The diagnosis also include the cardiologist's recommendations. Results from ACI are turned around in less than 24 hours unlike the normal cardiology turnaround time of 1 to 2 weeks.

## Our Clinicians / Our Technology

Our accredited, advanced technology mobile imaging units provide the highest quality imaging available today. Our certified medical staff (nuclear medicine technologists and echo cardiographic and vascular technologists) also hold ACLS certifications and help turn our state-of-the-art technology, under your direct supervision, into state-of-the-art patient care. Our skilled Medical Assistants ensure an efficient and pleasant experience for your patients. With ACI, you get the best of both worlds. The most advanced systems available and highly qualified patient care experts.

## Accreditation and Regulatory Compliance

ACI is fully accredited with ICANL and ACR certifications. ACI equipment and staff credentials are in complete compliance with state and federal regulations including Medicare and STARK laws.

## Reimbursement

We can help you locate insurance codes to assure your proper billing with Medicare, Blue Cross Blue Shield, and various other insurance carriers for prompt reimbursement

Enhanced Patient Care

AMERICAN  
CARDIOVASCULAR  
IMAGING

*"I was a normal healthy person with no symptoms of heart disease. My primary physician felt the need to check my heart based on my calcium scoring. ACI group came to my primary's office and with a quick test ...I was immediately scheduled for cardiac catheterization and open-heart surgery. I was in and out of the hospital within days. The whole process was done in two weeks. Thanks to this wonderful team and early detection, a speedy quadruple bypass spared me the hassle of dealing with illness that could have kept me in the hospital and cost me more time and money."*

**Glen F., age 75, Baltimore MD.**
